• Looking forward to 2012

Looking forward to a busy 2012...

The year ahead is looking bright and very busy for all of us here at ATAP. Hopefully all our customers will be the same.

In 2012 our product range will continue to grow as in 2011. We hope to introduce some new product lines to help complete our current offerings.

We will continue to add many more part

numbers to our current ranges to cover more and more vehicle applications.

ATAP looks forward to working with our customers to strengthen our partnerships and confidently move into the future.

We wish you all a successful & prosperous year ahead. We look forward to dealing with you and will keep you all up to date with what's happening here at ATAP.

Regards The ATAP Team

• BP Truck & Trailer Catalogue

BP Truck & Trailer Parts Catalogue 2012

We are pleased to announced the release of the new Protex BP Truck & Trailer Catalogue.

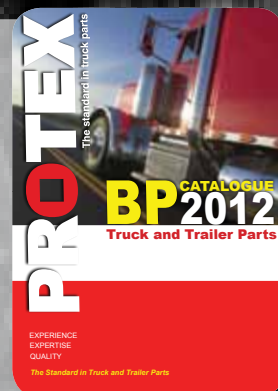

The new publication fully illustrates the impressive and comprehensive Protex range.

This latest update of the catalogue includes many new references and product listings over the previous version. The catalogue now includes 300 plus new product images, more axle model exploded views, many new

disc rotor & pad references and a greatly expanded cross-reference listing.

The catalogue is easy-to-read and useful information & diagrams are included for Axle assemblies, anchor pins & brake hardware kits, brake shoes, disc rotors & pads, camshafts, slack adjusters, hubs & drums, air brake, hydraulic fittings, vacuum fittings, air suspension, mechanical suspension & service & measuring tools.

Copies will be distributed throughout Jan/ Feb.
