ATAP are pleased to bring you the **FILTER-CRAFT** range of filters, manufactured by CT Industry Co Ltd.

CT Industry, manufacture in excess of 13 million filters per year. These are distributed in 70 countries around the world. Working at the cutting edge of filtration technology, CT Industry has turned the manufacturing of filters into an art form, from which the brand FILTER-CRAFT was born.

FILTERCRAFT filters are designed to be at least equivalent to OEM filters and in many cases out perform the filter originally fitted to the vehicle.

FILTERCRAFT filters are designed to meet OEM standards. Excellence in design and engineering results in maximum efficiency and improved filtration. FILTERCRAFT filters provide unparalleled performance and incorporate such features as:

- Media (filter paper) technology meets OEM specifications which screens out more harmful contaminants for greater engine protection
- Primed and baked paint finish ensures a long life and corrosion resistance

Oil

- Pre-lubed gaskets which reduces fitter error and provides a tight yet easy to remove seal
- Silicone anti-drain back valves which remain flexible in extreme temperatures and improves oil flow
- Double locked rolled seam which forms a leak free canister

Air

- Treated multi layer media in air filters for maximum performance and durability
- Pleated to meet OEM specification and to provide the correct surface area and capacity
- OEM style perimeter gasket prevents filter by pass of harmful particles and noise
- Injection molded bodies in air

filters retains stability for performance and longer life

Fuel

- High efficiency media that allows a high flow rate and maximum filtration
- Pressure stable housings that withstands pressure surges

Please contact your local ATAP office with your specific range requirements.

ATAP Staff

ATAP is pleased to announce
the appointment of **Ian
Weldon** to the position of
**Product Manager –
Service Parts.**

Ian will join the Product De-
velopment team at head of-
fice in Melbourne, his new
role will incorporate most of

the new products ATAP have
recently introduced (water
pumps, filters, wipers, electri-
cal products etc).

Ian has most recently been
working in the warehouse at
ATAP Melbourne and prior to
that he was at ATAP Qld and
other organisations that have

provided him with the
necessary experience.
Ian will commence his
new position on Monday
June 4th. Ian is looking
forward to this new and
exciting challenge.
We wish Ian all the
best!!
