New Trailer Actuation Kit Brochures

Welcome and Goodbye to staff members

ATAP Contact Details

ATAP now offer CV Driveshafts, CV Joints and CV Boot Kits. Constant velocity, or CV, joints enable drive power to be transmitted through a sharp angle. They must tolerate 20° vertical suspension movement and 50° side-to-side movement for steering. Front-wheel-drive cars have two drive shafts, or half shafts. There are CV joints at both ends of the half shafts. The CV joint that attaches one end of each half shaft to the differential portion of the trans-axle is called an inboard. Inboard, or plunge, CV

joints must accommodate the in-and-out movement of the half shafts as the suspension operates. The CV joint at the other end of the half shaft is called an out board, or fixed, joint. Nevertheless, every kind of CV joint uses a boot and is serviced in similar fashion. The Protex driveline range is our most recent addition. It

currently consists of Driveshafts, CV and steering rack boots and a comprehensive range of wheel bearing kits which compliments the extensive range of Protex Disc Rotors. ATAP's new range is competitively priced and the 2nd edition of the catalogue is now available.

Protex— The standard in auto parts

Protex Rubber Grease and Truck Wash

Special points of interest:

- Products
- Marketing

- Warehouse details

Highlighting Protex Rubber Grease and Truck Wash. Protex Rubber Grease is used when assembling brake cylinder components. The rubber grease stops squeaks & squeals on moving rubber parts. It is an ideal lubricant for all automotive rubber products. Protex Truck Wash is a very concentrated wash and is of proven quality and reliability. The wash is formulated using the very latest technology and per-

forms equally well in hard and recycled water. Containing corrosion inhibitors to guard against harmful oxidation, the wash is 100% biodegradable and is quick in breaking down and complies with local government regulations. It is free from harmful ingredients such as solvents and caustic and contains anti-redispersion additives to prevent streaking and residual films. The wash is also a very good cleaner that has a multitude of applications such as laundry liquid, shower cleaner etc.

New Trailer Brake Actuation Kit Brochures

A new brochure highlighting our Trailer Actuation kits is now available to customers.

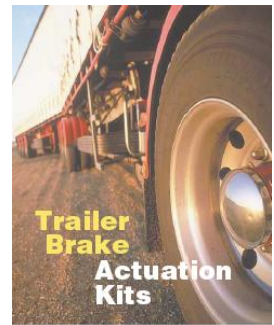

ATAP make Trailer Brake Actuation Kits for a wide range of applications with or without ABS. There's an ATAP Brake Kit for every trailer including 1,2 and 3 axle semi, 1,2 and 3 axle B-Double, Road Train and Dolly and 2,3 & 4 axle dog. But it's

the ease of configuration, ordering and fit that sets ATAP Trailer Brake Actuation Kits apart. ATAP customers benefit from ATAP's custom-design service and can choose from a comprehensive range of valve manufacturers. All ATAP Kits are conveniently packaged and supplied with full fitting instructions, and all our products are backed up by our Australia-wide

service network. ATAP even takes the effort out of ordering, with our easy-to-understand part numbering system.

Brochures are available from your state ATAP office.

Catalogue soon to be released.

Innovative solutions for your trailer brake needs.

Welcomes and Goodbyes

We welcome Micheal Keogh to ATAP's Head office as the new Financial Controller. Micheal is hoping to become a valued member of ATAP in providing valuable financial support and advice to the directors and management at ATAP. Micheal has come across from Aggreko and brings with him vast financial experience and knowledge. Outside of work Micheal enjoys time with his

wife Anne and two boys Josh and Nick, is a keen sports fan and personal investor. Micheal is excited about getting to know everyone at ATAP and is looking forward to a bright and prosperous future.

We also welcome Jesus Dy-Tahun to manufacturing and Hung Trang to the Melbourne warehouse.

We wish Micheal, Jesus and

Hung all the best in their new positions.

We say goodbye to Mark Hall who was the previous Financial Controller at head office. Mark has been with us for the last five years and decided to leave the organisation and pursue other interests. We wish Mark all the best for the future.

Quote of the day

"Dream it, live it, do it"

SA ATAP On the Move

The South Australian office will be relocating. Barry and the crew have really earned this move. They have survived the water damage and the white ants and are really looking forward to being able to lay out stock properly. The new premises will improve the ability to move stock in and out re-

sulting in improved customer service. Trading from our new site will commence the second week of October. Be sure to update address lists. The contact numbers will remain the same.
